This listing of claims will replace all prior versions and listings of claims in the present application.

Listing of Claims

- (Currently amended) A method of manufacturing cosmetic preparations
 comprising the mixing of cosmetic preparation precursors in a process vessel to
 form said cosmetic preparations during consecutive heating and cooling cycles,
 <u>wherein said cosmetic preparation precursors comprise at least 50% processed</u>
 Dead Sea mineral particles, having a size less than about 10 mesh.
- (Cancelled) The method of manufacturing cosmetic preparations of Claim 1
 wherein said cosmetic preparation precursors comprise at least 50% processed
 Dead Sea mineral particles.
- 3. (Currently Amended) The method of manufacturing cosmetic preparations of Claim [2] 1 wherein said cosmetic preparation precursors comprise a mixture of at least 50% processed Dead Sea minerals in a continuous all-natural carrier medium wherein said Dead Sea minerals do not rapidly settle out of said carrier medium.
- 4. (Original) The method of manufacturing cosmetic preparations of Claim 3 wherein said continuous all-natural carrier medium comprises palm oil.
- (Original) The method of manufacturing cosmetic preparations of Claim 4
 wherein said continuous all-natural carrier medium comprises soybean oil.
- 6. (Original) The method of manufacturing cosmetic preparations of Claim 5 wherein said continuous all-natural carrier medium comprises olive oil.
- 7. (Original) The method of manufacturing cosmetic preparations of Claim 6

2

- wherein said continuous all-natural carrier medium comprises jojoba oil.
- 8. (Original) The method of manufacturing cosmetic preparations of Claim 7 wherein said continuous all-natural carrier medium comprises beeswax.
- (Original) The method of manufacturing cosmetic preparations of Claim 8
 wherein said continuous all-natural carrier medium comprises jojoba wax.
- (Original) The method of manufacturing cosmetic preparations of Claim 9
 wherein said continuous all-natural carrier medium comprises cashew husk oil ethoxylate.
- 11. (Original) The method of manufacturing cosmetic preparations of Claim 10 wherein said continuous all-natural carrier medium comprises coconut oil.
- 12. (Original) The method of manufacturing cosmetic preparations of Claim 1 wherein said cosmetic preparation precursors comprise an essential oil blend.
- (Original) The method of manufacturing cosmetic preparations of Claim 12
 wherein said essential oil blend comprises lavender.
- 14. (Original) The method of manufacturing cosmetic preparations of Claim 13 wherein said essential oil blend comprises rosewood.
- 15. (Original) The method of manufacturing cosmetic preparations of Claim 14 wherein said essential oil blend comprises chamomile.
- (Original) The method of manufacturing cosmetic preparations of Claim 15
 wherein said essential oil blend comprises calendula.
- 17. (Original) The method of manufacturing cosmetic preparations of Claim 1 wherein said consecutive heating and cooling cycles comprise the step of heating said process vessel to about 65 degrees Celsius.

3

- 18. (Original) The method of manufacturing cosmetic preparations of Claim 17 wherein said consecutive heating and cooling cycles further comprise the step of cooling said process vessel after said heating step.
- 19. (Original) The method of manufacturing cosmetic preparations of Claim 18 wherein said cooling step occurs at a rate of at least 200 gallons in about two hours or less.
- 20. (Original) The method of manufacturing cosmetic preparations of Claim 19 wherein said consecutive heating and cooling cycles further comprise the step of cooling said process vessel to about 42 degrees Celsius.
